

Divyasri K Gutti

COMPUTER SCIENCE ENGINEERING (DATA SCIENCE) STUDENT | SOFTWARE DEVELOPMENT & AI/ML ENTHUSIAST

Ballari, Karnataka | 8088323921 | Divyapuc2025@gmail.com

Profile Summary

Computer Science Engineering student specializing in Data Science, with a strong interest in Software Development, Artificial Intelligence, Machine Learning, and data-driven applications. Proficient in C and Python, with hands-on experience developing academic projects involving IoT-based monitoring, embedded systems, console applications, and resume analysis. Interested in applying programming and problem-solving skills to practical software and data-driven projects.

Education

Ballari Institute of Technology and Management, Ballari – 583132

Bachelor of Engineering — Computer Science Engineering (Data Science)

Expected Graduation: 2029

CGPA: 8.8 / 10

Academic Projects

Air Quality Monitoring Device

- Developed an academic project focused on monitoring air quality parameters.
- Explored sensor-based data collection and environmental monitoring concepts.
- Integrated hardware components with programming to support air-quality monitoring.

Blind Stick Using Ultrasonic Sensor

- Developed a smart-assistance prototype using an ultrasonic sensor for nearby obstacle detection.
- Implemented distance-based obstacle detection to provide assistance to visually impaired users.
- Applied basic embedded-system and sensor-integration concepts.

Console-Level Cinema Ticket Booking System

- Developed a console-based application for managing movie ticket booking operations.
- Implemented user input, selection, booking, and ticket-related functionality.
- Applied programming fundamentals and logical control flow to build an interactive application.

Console-Based Resume Analyzer

- Developed a console application for processing and analyzing user-provided resume information.
- Applied programming logic to evaluate resume data.
- Explored the concept of automating basic resume analysis through software.

Internship

Advanced C — Internship

- Completed an internship focused on Advanced C programming.
- Strengthened C programming fundamentals through practical exercises and problem-solving.
- Applied programming concepts to develop a stronger understanding of structured application development.

Technical Skills

Programming Languages: C, Python, Java (Currently Learning)

Areas of Interest: Software Development, Artificial Intelligence, Machine Learning, Data Science

Core Skills: Problem Solving, Programming Fundamentals, Console Application Development

Concepts: Basic Data Analysis, Sensor Integration, Embedded-System Fundamentals

Certifications

- **Deloitte Job Simulation** — Completed an industry-oriented job simulation involving professional tasks and problem-solving.
